PART II – Descriptive Questions (70 Marks)

1. (a) As per AS 26 “Intangible Assets”, expenditure on research should be recognized as an expense when it is incurred. An intangible asset arising from development (or from the development phase of an internal project) should be recognized if, and only if, an enterprise can demonstrate all of the conditions specified in para 44 of the standard. An intangible asset (arising from development) should be derecognised when no future economic benefits are expected from its use according to para 87 of the standard. Thus, the manager cannot defer the expenditure write off to future years in the given case.

Hence, the expenses amounting ₹ 40 lakhs incurred on the research and development project has to be written off in the current year ending 31st March, 2024.
- (b) (i) As per AS 2 ‘Valuation of Inventories’, abnormal amounts of wasted materials, labour and other production costs are excluded from cost of inventories and such costs are recognised as expenses in the

period in which they are incurred. The normal loss will be included in determining the cost of inventories (finished goods) at the year end.

(ii) Material used	16,000 MT @ ₹ 190 = ₹ 30,40,000
Normal Loss	(5% of 16,000 MT) 800 MT (included in calculation of cost of inventories)
Net quantity of material	15,200 MT

(iii) Abnormal Loss in quantity (950 - 800) 150 MT

Abnormal Loss ₹ 30,000

[150 units @ ₹ 200 (₹ 30,40,000/15,200)]

Amount of ₹ 30,000 (Abnormal loss) will be charged to the Profit and Loss statement.

(c) As per AS 13 (Revised) 'Accounting for Investments', where long-term investments are reclassified as current investments, transfers are **made at the lower of cost and carrying amount** at the date of transfer; and where investments are reclassified from current to long term, transfers are made **at lower of cost and fair value** on the date of transfer.

Accordingly, the re-classification will be done on the following basis:

1. In this case, carrying amount of investment on the date of transfer is less than the cost; hence this re-classified current investment should be carried at ₹ 12 lakhs in the books.
2. In this case, reclassification of current investment into long-term investments will be made at ₹ 7 lakhs as cost is less than its fair value of ₹ 8.5 lakhs on the date of transfer.

2.

Oliva Company Ltd.

Statement of Profit and loss for the year ended 31.03.2024

	Particulars	Note	Amount (₹)
I	Revenue from operations		17,10,000

13.	Other Expenses			
	Manufacturing Expenses (2,70,000 + 67,500)		3,37,500	
	General Charges (16,500 – 2,490)		<u>14,010</u>	3,51,510

3. (a) As per AS 29 "Provisions, Contingent Liabilities and Contingent Assets", where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement should be recognised when, and only when, it is virtually certain that reimbursement will be received if the enterprise settles the obligation. The reimbursement should be treated as a separate asset. The amount recognised for the reimbursement should not exceed the amount of the provision.

It is apparent from the question that the company had not made provision for warranty in respect of certain goods considering that the company can claim the warranty cost from the original supplier. However, the provision for warranty should have been made as per AS 29 and the amount claimable as reimbursement should be treated as a separate asset in the financial statements of the company rather than omitting the disclosure of such liability. Accordingly, it is viewed that the accounting treatment adopted by the company with respect to warranty is not correct.

(b) Balance Sheet of Radhika Ltd. (and Reduced) as on 1.4.2024

	Particulars	Notes	₹
